S. G. Joglekar

Vice-President
Stup Consultants Pvt. Ltd.

Exhibition Committee

Chairman

V. B. Parasnis
Consultant

APPEAL

CEMCON is a group of professionals devoted to construction industry for more than twenty years. We at ICI Pune Centre organise event under this banner annually on various themes but related to cement concrete. This year **CEMCON-2017** is being contemplated under the theme - **FAST TRACK INFRASTRUCTURE DEVELOPEMENT CHALLENGES AND SOLUTIONS**. Infrastructure here connotes to highways, bridges, flyovers, tunnels and nowadays metros (railways) as an efficient public transportation in Metropolices. Infrastructure, per say, are vital lifelines for every developing country, like India. India is progressing fast for last 15/20 years in this field and has undertaken mega projects like GOLDEN QUADRANGLE and a network of numerous expressways spread across the Indian

Continent. We hope and are sure that this conference will be meaningful to the concerned fraternity of engineers, architects, structural designers, machinery manufacturers, material suppliers and infrastructure developers.

We are also organising an exhibition at the venue of conference. In tune with MAKE IN INDIA spirit the exhibition will provide a platform to the manufacturers to showcase their coveted products and have a direct dialogue with the esteemed delegates participating the conference.

We wholeheartedly invite authors, delegates, manufacturers, suppliers and media to this conference.

TECHNICAL PAPERS

Slope stabilization – case study from assam with composite solution

Tiru Kulkarni, President Geo Sythentice Division
Garware Wallropes Ltd. Pune

Surge shaft excavation and concrete lining with slipform

At punatsangchhu – i hep, mc # 3 package, bhutan
S. D. Jeur, Head of Hydro electric project HCC Ltd. Mumbai

Procedure for the collection and depiction of existing

Subsurface utility data

Application of geophysical methods to highway

Related problems
